INDEX TO VOLUME IX

Akutowicz, E. J. The ergodic property of the characteristics on a torus 275

Arsove, M. G. Proper Pincherle bases in the space of entire functions 40

Borwein, D. Theorems on some methods of summability . . 310

Buchdahl, H. A. On phase-invariant and gauge-invariant spinor analysis 109

—— Gauge-invariant generalization of field theories with asymmetric fundamental tensor (II) 257

Chaundy, T. W. On Clausen's hypergeometric identity . . 265

—— and **McLeod, J. B.** On a functional equation . . . 202

Clunie, J. Inequalities for integral functions 1

de Groot, J., and de Vries, H. Metrization of a set which is mapped into itself 144

de Vries, H., see **de Groot, J.**

Everitt, W. N. Some properties of Gram matrices and determinants 87

Flatto, L. A problem on random walk 299

Foster, D. M. E. On a class of quadratic polynomials in n variables 241

Gehring, F. W. The asymptotic values for analytic functions with bounded characteristic 282

Green, H. F. Rings of infinite matrices 73

Heins, A. E., and MacCamy, R. C. A function-theoretic solution of certain integral equations (I) 132

Horadam, A. F. Projection of an invariant locus in [8] from a solid lying on it 81

Jakimovski, A. Some remarks on Tauberian theorems . . 114

—— and **Parameswaran, M. R.** Generalized Tauberian theorems for summability-(A) 290

James, I. M. Filtration of the homotopy groups of spheres. . 301

—— and **Whitehead, J. H. C.** Homology with zero coefficients . 317

Kendall, D. G. A totally unstable denumerable Markov process . 149

MacCamy, R. C., see **Heins, A. E.**

Marcus, M. On doubly stochastic transforms of a vector . . 74

McLeod, J. B. On the commutator subring 207

—— see **Chaundy, T. W.**

Noble, M. E. On a convergence criterion of Hardy and Littlewood 28

Paechter, G. F. The groups $\pi_r(V_{n,m})$ (II) 8
Parameswaran, M. R., see **Jakimovski, A.**
Parsons, D. H. One-dimensional characteristics of a partial differential equation of the second order, with any number of independent variables 210
Petersen, G. M. Matrix norms 161
Prabhu, N. U. On the integral equation for the finite dam . . 183
Preston, G. B. Matrix representations of semigroups 169
Rhodes, F. Homogeneity and isotropy in geodesic spaces . . 55
Room, T. G., and **Smith, R. J.** A generation of the symplectic group 177
Shah, S. M., and **Singh, S. K.** Note on a step function . . 63
Shutrick, H. B. Complex extensions 189
Singh, S. K., see **Shah, S. M.**
Smith, R. J., see **Room, T. G.**
Walker, A. G. Connexions for parallel distributions in the large (II) 221
Watson, G. L. One-sided inequalities for integral quadratic forms 99
Whitehead, J. H. C., see **James, I. M.**
Whittle, P. A multivariate generalization of Tchebichev's inequality 232
Wilson, R. On Hadamard composition with algebraic-logarithmic singularities 68
